

Coronavirus (COVID-19) Catch-Up Premium

How will the premium be spent

The grant will be spent on additional lessons to support pupils who have fallen significantly behind. These pupils have been identified through our assessment process as well as discussions within subject departments. Morning interventions have been rolled out for Years 7-11 in English, maths, science and art. These are 40 minute sessions before period 1 with subject specialist teachers. The schools are recruiting ambassadors to deliver small group intervention in a range of subjects and using external tutoring companies for subject specialist days.

How the effect of this expenditure on the educational attainment of those pupils at the school will be assessed

The schools assessment system will be used to measure the progress and attainment of the pupils who are receiving additional intervention. The assessment system will also be used throughout the year to identify further pupils who could benefit from additional support.
